SUBJECT: Mud and Cuttings Analysis
No. 2-A New Mexico Arizona Land Well
Wildcat Field
Navajo County, Arizona

Gentlemen:

*in pocket
file*

A mud and cuttings analysis unit was on location at the above well site during drilling operations between the depths of 100.0 and 390.0 feet. The mud was continuously monitored for the presence of hydrocarbons. In addition to a standard "Hot-Wire" gas detector, a programmed hydrocarbon detector was utilized for this purpose. Using standard logging procedures, our personnel checked the cuttings at regular intervals for the presence of hydrocarbons and lithology. The results of these operations are shown on the accompanying Grapholog along with other pertinent information, such as a rate of penetration curve, bit record, lithological descriptions, drill stem test results and descriptions of shows encountered.

After reviewing the Grapholog, we feel that it is self explanatory. If, however, there is any matter about which you desire further information or clarification, please notify us and we shall be most happy to discuss the matter with you.

We trust that our services have been of assistance in the evaluation of this well and that we may be of further assistance to you in the future.

Very truly yours,

CONSERVATION COMMISSION

Application to Drill, Deepen or Plug Back

Form No. P-1

File two copies

Effective Feb. 28, 1962.

INSTRUCTIONS
READ CAREFULLY AND COMPLY FULLY

For the purpose of this determination attach hereto a neat, accurate plat, map or sketch of this lease, section, block or lot locating thereon the proposed site for this location. Plat shall be drawn to a scale which will permit the facile observation of all pertinent data. Show distances of the proposed well from the two nearest lease and section lines, and from the nearest wells on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well, and the names and addresses of all adjoining lease or property owners.

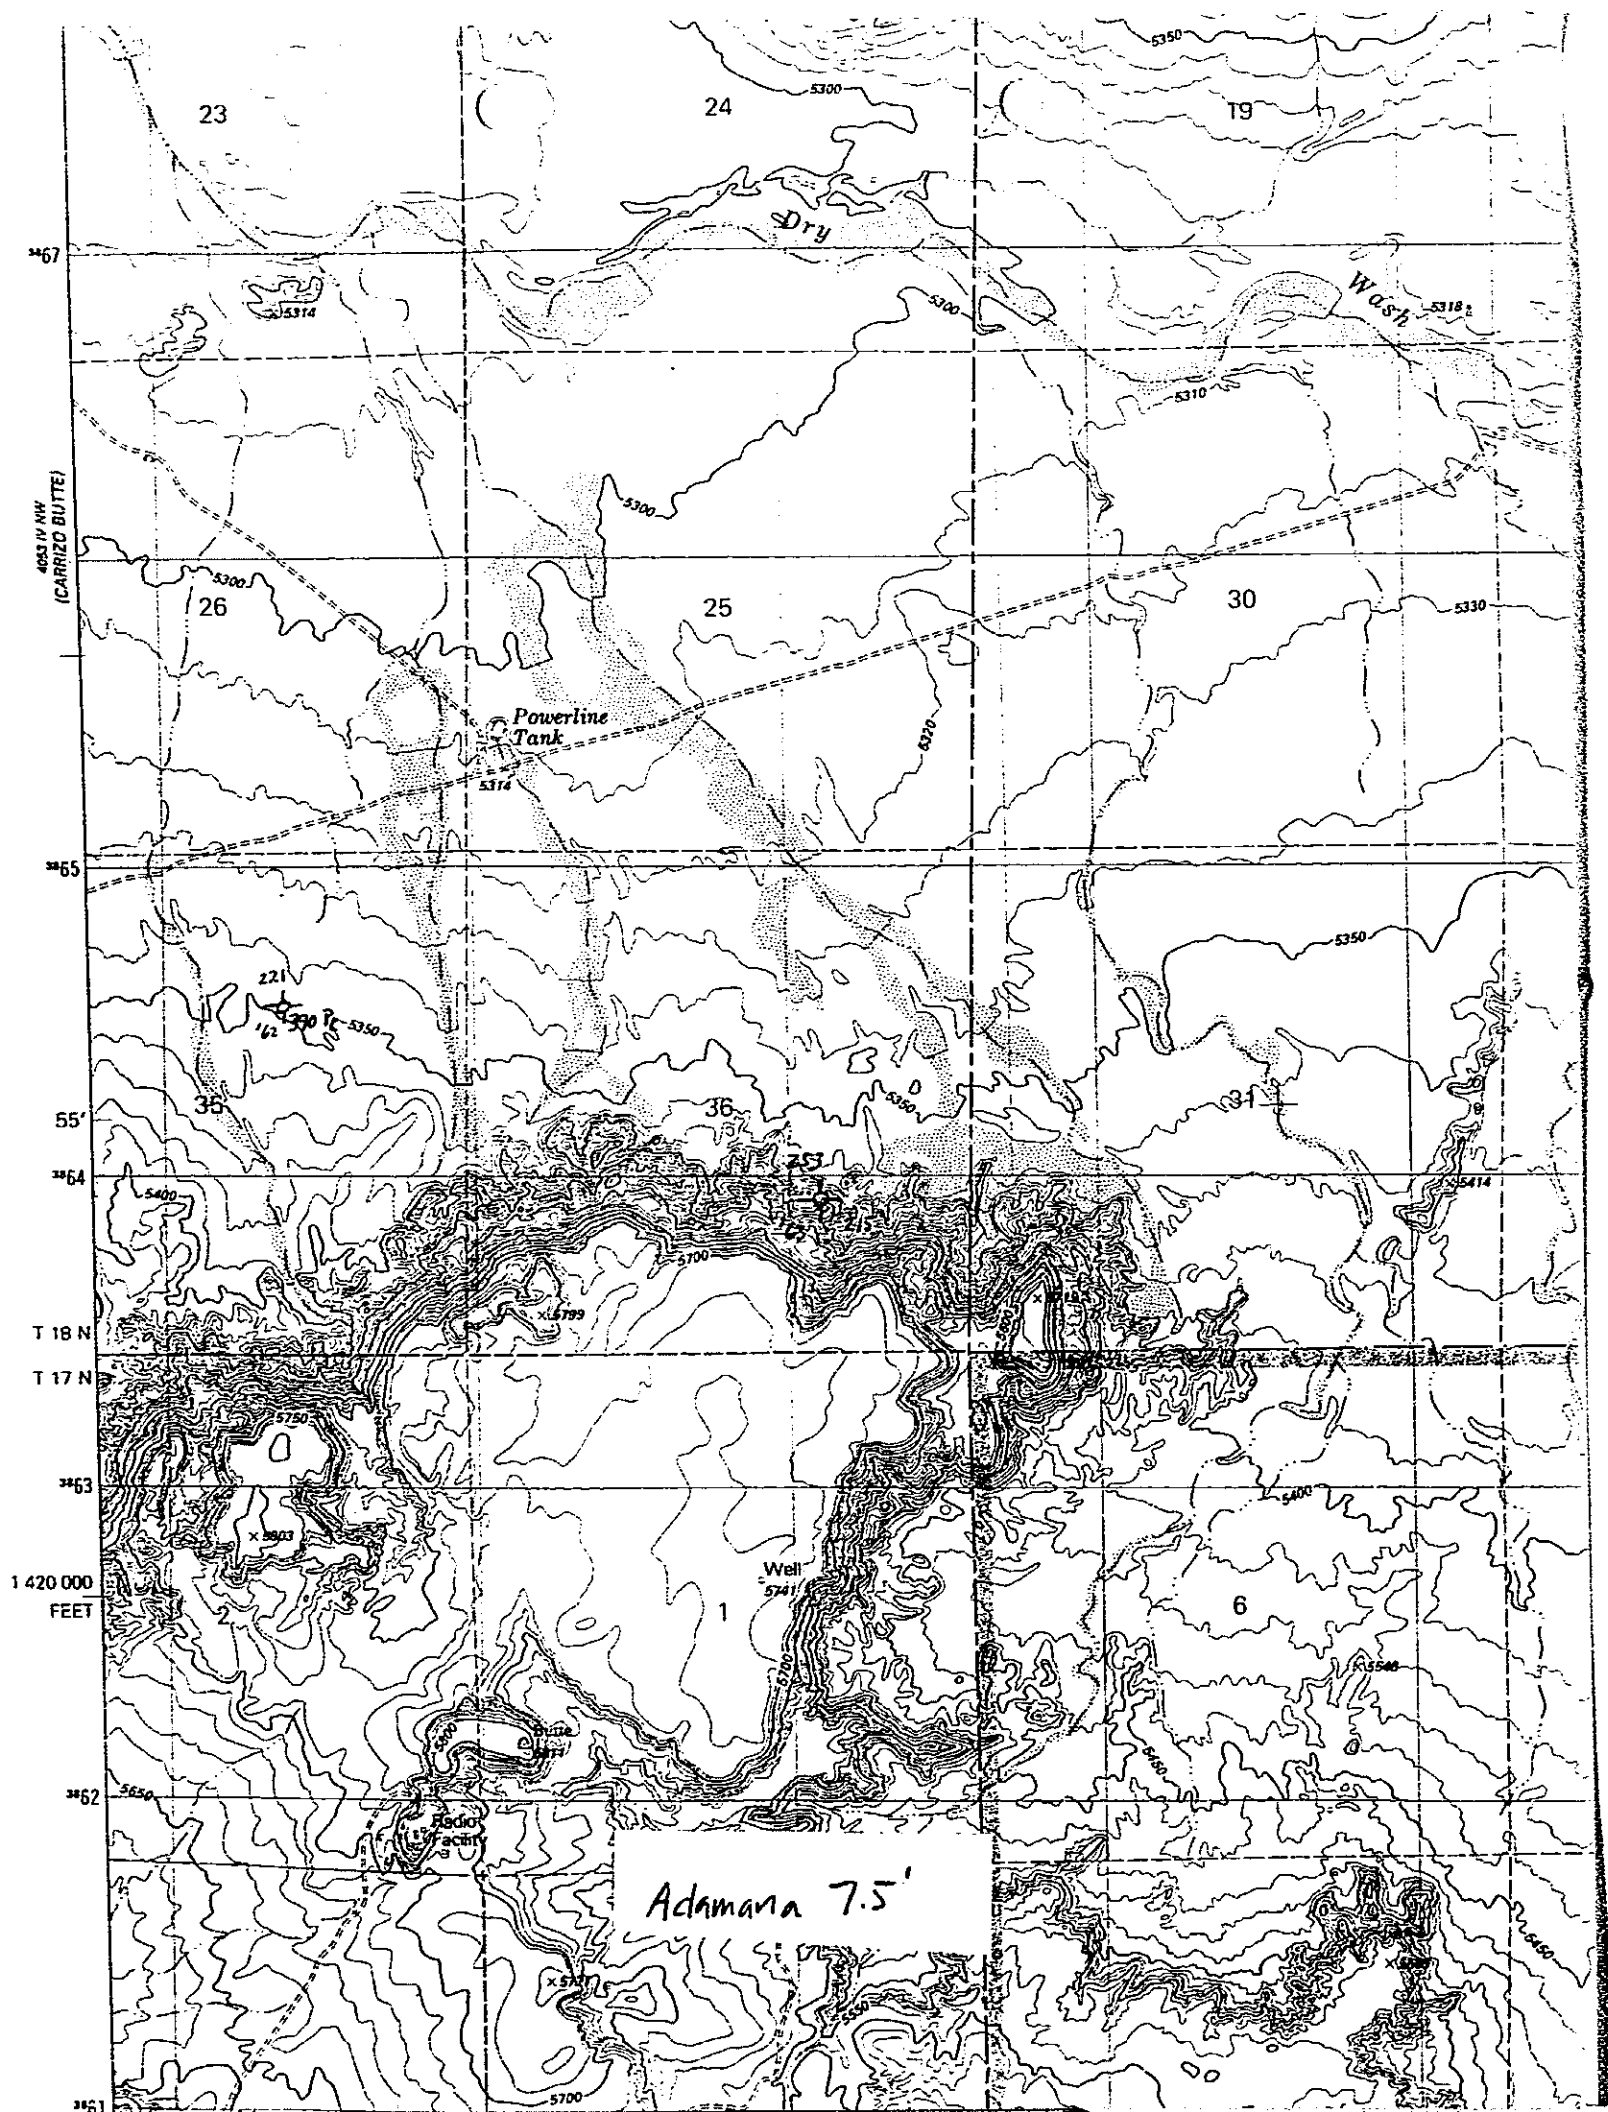

In event plat is filed for the purpose of designating the drilling and producing unit, or proration unit, on which the proposed well is to be drilled, the boundaries of such unit shall be shown, also the boundaries of all other such units attributed to other wells on the same lease completed in or drilling to the same reservoir. The acreage contained within each unit shall also be shown.

Do not confuse survey lines with lease lines. The sketch or plat should show your entire lease if possible. If it is not practical to show the entire lease and the plat shows only a section, block or lot out of your lease, you should clearly show that same is only a part of the lease.

Designate scale to which plat or sketch is drawn. Also designate northerly direction on the sketch or plat.

Re: General Insurance Blanket Bond 467846

Mexico and Arizona Land Co. well C-#1
SW/4NE/4, S27-T8N-R23E, Navajo County, Arizona
Our file 235

Gentlemen:

We are in receipt of your letter of November 03, 1964, requesting permission to cancel the captioned bond covering all of your wells in the State of Arizona.

The captioned well is currently a shut-in helium well and must at all times be under bond.

This letter will evidence authority that the captioned blanket bond in the amount of \$10,000 may be cancelled and replaced by a \$2,500 bond to cover the captioned well only. The blanket bond shall not be cancelled until such time as the \$2,500 bond has been placed in effect and a copy filed with this Commission.

In reviewing our files we further note that no logs or other pertinent data have been filed for the captioned well or for the Franklin, Asten & Fair State #1 well located in the NW/4SE/4, S36-T18N-R23E, and the FeeC-#2 well located in the SW/4NE/4, S27-T18N-R23E.

Will you please furnish this office as soon as possible copies of such logs and other information not yet filed with the Commission.

If we may be of further help, will you please advise.

Yours very truly,

Executive Secretary

Dear Mr. Smith:

Your Franklin Aston & Fair #1-A New Mexico and Arizona Land Company in N/2 Section 1-T18N-R23E has been released as to bonding requirements on your blanket bond, but not on your other wells. We emphasize that this well only is released from bond.

We need completion forms on the following:

Franklin Aston & Fair #A-2, Section 35-T18N-R23E
Franklin Aston & Fair #1 Bernstein State, Section 36-T18N-R23E
Franklin Aston & Fair #B1 New Mexico and Arizona Land Company
Fee, Section 22-T17N-R23E.

We don't have plugging or completion forms on the following:

Franklin, Aston & Fair #C-1 New Mexico and Arizona Land Company
Fee, Section 27-T18N-R23E.
Franklin, Aston & Fair #C-2 New Mexico and Arizona Land Company
Fee, Section 27-T18N-R23E.

Please reply when you send the completion forms, etc. on the above and state which ones of the wells in 27 you want to leave open and what your plans are regarding future work on them.

Very truly yours,

John K. Petty

Dear John:

Enclosed is the Plugging Record for the Franklin, Aston & Fair, Inc.
Bernstein No. 1 well, located 1650' FSL and 1650' FEL of Section 36,
Township 18 North, Range 23 East, Navajo County, Arizona.

Also included are the Plugging Records for the Franklin, Aston & Fair,
Inc. New Mexico and Arizona Land Company B #1, located 1650' FNL and
1650' FEL of Section 22, Township 17 North, Range 22 East, Navajo County,
Arizona, and the Franklin, Aston & Fair, Inc. New Mexico and Arizona
Land Company A #2, located 1650' FNL and 1980' FEL of Section 35, Town-
ship 18 North, Range 23 East, Navajo County, Arizona.

Application to Plug and Abandon these wells had been formerly approved
by you and due to an oversight on our part, the Plugging Records were
not forwarded. I assumed that the Applications to Plug and Abandon with
your signature of approval were all that were necessary.

Tom has asked me to remind you concerning your conversation with him
regarding our drilling bond last week.

With best regards, I am,

Yours sincerely,

FRANKLIN, ASTON & FAIR, INC.
